

PC 230 – Sound Entertainment

Sennheiser Communications announces the release of a multimedia stereo headset with outstanding sound and convenience, for pristine telephony and an inspirational entertainment experience.

Product Information

The **PC 230** boasts first class stereo sound and the innovative design features that give home entertainment lovers and skypers the comfort they crave. Your headset is now customizable – thanks to an ergonomic swivel microphone boom, you can wear the microphone and volume control on either the right or left. Noise canceling technology and Sennheiser speakers take care of the rest.

→ In 100 Words

The outstanding **PC 230** multimedia headset gives you the excellent stereo sound you've come to expect from Sennheiser, plus the superior convenience of some ingenious new design features put the PC 230 in a comfort class of its own. The result is an inspirational entertainment experience on your home PC – and internet telephony that's clear as a bell. The PC 230's innovations include a microphone that mutes automatically when you raise it above your head and an ergonomic swivel boom for switching the microphone from one ear to the other. The volume control is integrated directly in one ear cup and you can switch this from left to right, too.

→ In 50 Words

The outstanding **PC 230** multimedia headset combines the excellence of Sennheiser stereo-sound with superior comfort – to deliver pristine internet telephony and inspirational home entertainment. Innovations like the ergonomic, right/left reversible microphone boom, automatic microphone mute and on-ear cup volume control put the PC 230 in a comfort class of its own.

→ In 25 Words

The outstanding **PC 230** multimedia headset gives you the excellence of Sennheiser sound, plus the superior convenience of some ingenious new design features put the PC 230 in a comfort class of its own.

Benefits and Features

- **Superb Sennheiser stereo sound** – Sennheiser quality speakers deliver clear, detailed sound reproduction and supreme acoustic performance
- **Noise canceling clarity** – the microphone reduces ambient noise for crystal-clear internet telephony without raising your voice
- **Lightweight comfort** – soft ear pads and ergonomic microphone design guarantee uninterrupted enjoyment

- **Intuitive design** – the volume control is integrated in the ear cup for quicker access
- **Automatic microphone mute** – automatically mute the microphone by raising the boom arm
- **Right/left customizable** – choose which side to wear the microphone thanks to the full-swivel boom arm
- **Peace of mind** – thanks to the 2-year international warranty
